

Tischdekoration Herbsthäuser

Instructions No. 3116

Difficulty: Beginner

Working time: 3 Hours

Der Herbst steht vor der Tür und mit ihm die perfekte Zeit, um dein Zuhause in eine gemütliche Herbstlandschaft zu verwandeln. Mit einem Haus Holzbausatz oder Steckmotiv kannst du deine Kreativität ausleben und eine wunderschöne Herbstdekoration gestalten, die jeden Raum aufwertet. Diese detaillierte Anleitung führt dich durch den gesamten Bastelprozess, damit du im Handumdrehen individuelle Herbsthäuser kreierst. Lass dich inspirieren und erfahre, wie du mit einfachen Mitteln und ein wenig Fantasie etwas ganz Besonderes schaffen kannst.

Für unsere Idee haben wir den VBS Holzbausatz Herbsthaus verwendet. Gerne kannst du diese Anleitung als Grundlage für dein eigenes persönliches Miniaturhaus verwenden.

Step-by-step instructions for your autumn house

1. paint the wooden parts

First, you should paint the individual parts of the VBS wooden building kit autumn house according to your ideas. Use acrylic paints in autumnal tones such as orange, red, brown, green and yellow. Remember to also paint the edges and less visible areas to achieve an all-round perfect result.

2. assembly and gluing

Once the paint is completely dry, it's time to assemble. Assemble the individual parts according to the instructions and fix them together with handicraft glue. If you want to decorate the roof with moss, we recommend priming it with moss green paint first.

3. decorating with moss

For a particularly natural look, you can decorate the roofs with moss. To do this, apply some handicraft glue or alternatively hot glue to the roof surfaces and press the moss firmly into place. Make sure that you distribute the moss evenly to create a harmonious overall look on the roof.

4. decorate the mushrooms

Now it's the mushrooms' turn. To create beautiful dots on the mushrooms, you can use the ends of a bamboo skewer. Dip the skewer into the white paint and carefully dab the dots onto the mushroom caps. Use the thinner end of the skewer for smaller dots and the thicker end for larger ones.

5. design the base

Glue two bark discs on top of each other in a staggered pattern to create a stable base for your autumn house. Then place the wooden building kits on this base and fix them in place with handcraft glue or hot glue.

6. final decoration

Now you can decorate the autumn arrangement. Stick moss and mushrooms around the houses. This will give you an idyllic autumn landscape. Distribute the decoration so that it creates a balanced overall picture and all the elements are shown to their best advantage.

Your autumnal masterpiece is ready! Now it's up to you to embellish your home with your beautiful autumn house. You can find all the materials you need in our online shop.
